

AD-OVATION

ABOUT

Advertising a product to the masses is so much more nuanced than just telling people about it. David Ogilvy, whom TIMES magazine called "The most sought-after wizard in advertising industry", used to say - "If you're trying to persuade people to do something, or buy something, it seems to me you should use their language, the language they use every day, the language in which they think. We try to address them in the vernacular."

Needless to say, VIDEOS are the language of the modern times, that today's youth understand, connect to, in an instant and get immersed in it. They are also a powerful media, that can convey better engaging stories about your products in a very short time.

That being said, here is your chance to dive down in vast ocean of imagination to procure a pearl that will be a visual delight to your audience.

We, at AD-OVATION invite you to make your very own video advertisement for a product as creatively as you can. People vote for your advertisement with Facebook reactions, you inch closer and closer to winning.

So, participate in Ad-Ovation and increase your chances to win exciting prizes worth Rs.-----
