NIBBLE CODE 3.0

Are you awed by the simple solutions to impossible problem statements? Do you want to crack a few such by yourself? Here comes a chance to play with bytes and fight the bugs, and all you need to do is Code to Decode. So freshmen, buckle yourself to your seats and ready your minds to swish a flick!

Introducing you to the realm of competitive coding, we present **Nibble Code 3.0!** Exclusively for freshmen, the contest will be much of a fun game which will have you scratch your heads over simple but tricky problem statements.

The Contest will be divided into two rounds-

1. In the 1st round 6 coding based questions have to be solved in 3 hours on 2nd Feb 2020.
2. Top 15 individuals from the 1st round will be allowed to sit for the 2nd round where you have to solve 3 code-golf questions in 1.5 hours on 3rd Feb 2020.

   P.S. - Those who are not aware of code-golf questions, we will tell you about it in the workshop.

To familiarize the enthusiasts with the competing environment, a one day workshop will be organized prior to the contest which will provide them with ample knowledge such that they can play well and battle amongst themselves for a better leaderboard position.

Prizes Worth-9k

PROBLEM STATEMENT

A few questions will be listed, participants need to code the solution using any programming language.

RULES

• As it is an onsite event, participants are required to maintain expected decorum in the competition area.

 • Googling or discussion is prohibited during contest.
